FROM THE MANAGING DIRECTOR

Hello and welcome to MODE Fencing, where innovation meets unwavering commitment. We are the brainchild of six dynamic entrepreneurs driven by a shared vision for revolutionising the fencing industry. In 2023, these forward-thinking individuals united under the banner of SET6 LTD, determined to redefine gate and fence hardware solutions.

At MODE Fencing, we transcend the conventional boundaries of landscaping and fencing. Our focus goes beyond mere style and design; we're dedicated to engineering products that don't just meet but exceed performance standards. Each product we create is meticulously designed in-house and subjected to rigorous testing to ensure it withstands even the harshest conditions.

While others prioritise aesthetics, we've perfected the balance between beauty and uncompromising standards of durability. This commitment is what truly sets us apart in today's market. We don't just create visually appealing fences; we deliver products that uphold the highest standards of quality and longevity.

Join us on our journey to redefine the norms of fencing solutions. Experience the MODE Fencing difference where innovation, design, and durability converge to create a new standard in the industry.

Mark Naylor

MANAGING DIRECTOR

FENCING MADE BETTER

SAY GOODBYE TO ROTTING AND WARPING FENCES WITH MODE FENCING'S INNOVATIVE SOLUTIONS

Are you frustrated with rotting, cracking, and warping fence posts and panels? As fences age, maintaining them can become both tedious and costly. At MODE Fencing, we've discovered a better solution.

YOU DREAM IT AND WE CREATE IT

IMAGINE THIS...

- Innovative 'H' Shaped Fence Posts: Crafted from cold-rolled, galvanized steel and available in five stylish colors, these posts combine unmatched strength with modern aesthetics.
- Durable Composite Fence Panels: A groundbreaking addition to the fencing industry, these panels are made from sustainable materials, with rice husk as the primary filler. The WPC extrusion ensures long-lasting durability while being eco-friendly.
- Aluminium Panels: Designed for easy assembly, these panels offer a sleek and sturdy fencing solution, perfect for enhancing any outdoor space.
- Cheadle Gate: This gate seamlessly blends contemporary design with adjustable width, providing a sleek, modern look tailored to your specifications.
- Comprehensive Range of Accessories: Enhance and complete your fencing project with our full selection of accessories, including capping rails, post caps, gate posts, and gravel boards.

PEACE OF MIND GUARANTEED

Our maintenance free fit and forget fencing is light, secure and easy to install. Made in the UK, it is the sustainable fence post solution that offers flexibility in configuration and colour to suit your needs.

Our fence posts feature a robust 2mm galvanised steel chassis, which creates a 4mm centre rib for exceptional strength while remaining lightweight. This design ensures durability and ease of handling.

The exterior of the posts is adorned with aluminum covers available in five distinct colours. These covers are installed after the posts to prevent scratches during installation, allowing for a flawless finish.

We offer posts in various lengths, with options up to 3 meters to suit different needs.

MODE is 80% lighter than concrete and takes half the time to set up

MODE COMPOSITE FENCE PANELS

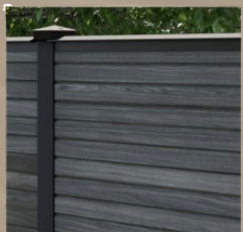

The Cheadle Fence Panel is a groundbreaking product in the fencing industry. Made from sustainable WPC with rice husk as the primary filler, it combines eco-friendliness with exceptional durability. UV stabilised and backed by a 15-year guarantee, it withstands the harshest weather without needing painting or staining.

Key Features:

- Low Maintenance: No painting or staining required.
- Versatile Design: Supports both horizontal and vertical installation.
- Easy Assembly: Tongue and groove panels in 150mm and 300mm sizes ensure quick and seamless installation.

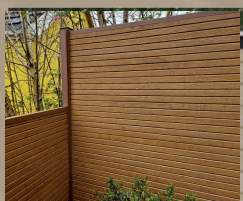

Ideal for both traditional and modern gardens, the Cheadle Fence Panel is perfect for contractors dealing with gradients, offering an effective and visually appealing solution. Revolutionize your fencing with the Cheadle Fence Panel.

THE FULL MODE FENCING RANGE

STEEL FENCE POST

Made from galvanised high tensile steel. Our post can be used with almost any type of fencing.

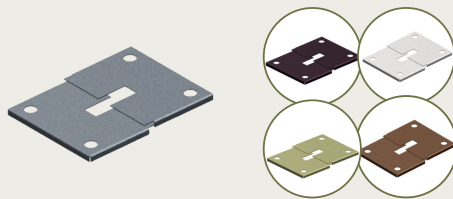

Sizes: 0.60m, 0.90m, 1.20m, 1.50m, 1.80m, 2.40m, 2.60m, 3.00m

MODE BOLT DOWN

This galvanized bolt-down ensures a secure anchoring of Fence Posts to walls, providing a reliable foundation for your fencing system.

BOLT DOWN COVER

The Post Bolt Down Cover serves as a finishing touch to conceal the bolt-down fixings, providing a polished appearance for your fencing system.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

CAPPING TOP FOR ALUMINIUM FENCE BOARD

Capping Top for Aluminium Panel in elegant black powder coated finish. Designed to seamlessly wrap top edges, it enhances aesthetics and adds protection. Easy to install, it ensures a clean, polished look for your panels.

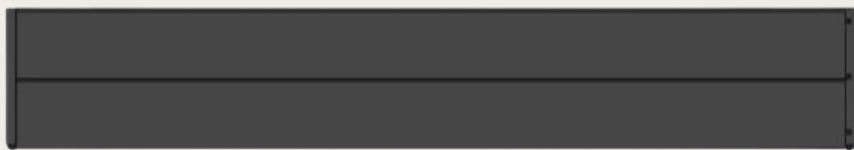

ELTON ALUMINIUM SCREEN FENCE BOARD

These Panels are pre-assembled at 1825mm wide and 300mm high. These panels can be shortened in width simply by removing the end strip and trimming the boards to the desired width. These panels effortlessly come together to craft a stylish and durable fencing solution for your outdoor space.

FARDON ALUMINIUM PRIVACY

These 1.83m wide and 300mm wide Panels are pre-assembled, streamlining the fitting process effortlessly. With precision engineering and a thoughtful design, these panels seamlessly interlock, facilitating an easy and efficient installation experience.

Embrace the convenience and elegance of our Aluminium Panels, effortlessly coming together to craft a stylish and durable fencing solution for your outdoor space.

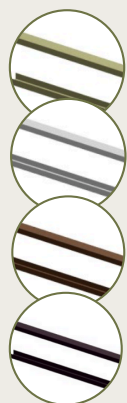

ADJUSTABLE CORNER

The MODE Adjustable Corner, is designed for irregular angles. It comes in a standard length that can be easily trimmed to fit on-site.

Complete with colour trims to match main fence post colours, it ensures a seamless and customised finish for any fencing project.

CROSS RAILS SET FOR CHEADLE FENCE PANEL

Cross Rail Set (Top & Bottom). These rails are specifically designed for the Cheadle composite panel, fitting snugly to offer crucial support and strength.

Colours: Black, Brown, Light Grey, Olive, Anthracite grey
Size: 1.83m, 2.40m

DECORATIVE TRELLIS PANEL

The Fleur Trellis Panel, a durable and stylish solution for your outdoor space. Unlike typical lightweight trellises, ours is designed to endure over time.

Colours: Black, Brown, Light Grey, Olive, Anthracite grey
Size: 1.83m, 2.40m

CHEADLE SLATTED FENCE BOARD

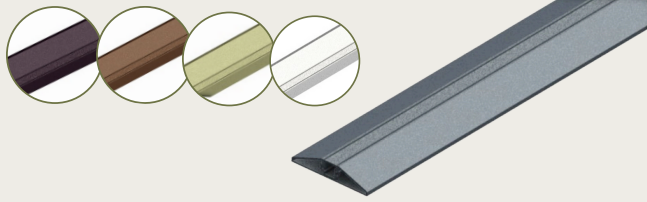

Introducing the ground-breaking Cheadle Slatted Fence Board. Made from sustainable WPC extrusion with rice husk filler, it offers exceptional durability and eco-friendliness. With a 15-year guarantee and UV stabilisation, it withstands harsh weather and requires no painting or staining.

Colours: Graphite Grey, Light Grey, and Natural Timber
Lengths: 1.83m, and 2.4m
Widths: 300mm, 150mm

Embrace durability, sustainability, and effortless beauty with the Cheadle Slatted Fence Board.

CAPPING RAIL

Our MODE Capping Rail, is the ultimate shield for your fence panels. They offer both functionality and elegance, with a 70mm wide aluminum profile and a 10mm overhang on each side. Easy to install with fixing holes for secure attachment to cross rails or panels, they fit standard timber panels too.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey
Sizes: 1.83m, 2.40m

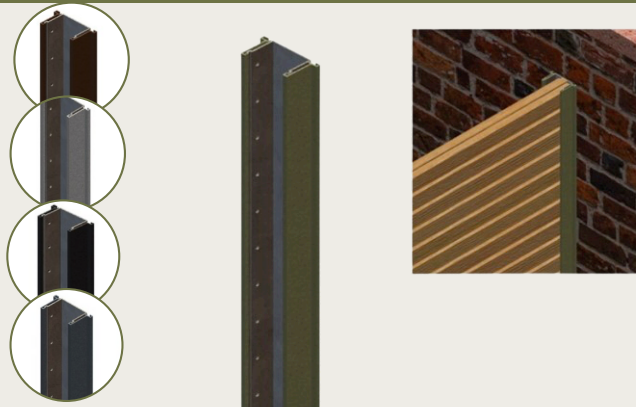

STEEL FENCE POST U CHANNEL

Introducing the U Channel Galvanised Steel Post in Style—a key component for a durable and resilient fencing system. Made from galvanised steel, this post offers exceptional strength and robust support, ensuring long-lasting performance. It's efficient design combines reliability with durability, making it essential for a fence that endures over time.

Sizes: 0.60m, 0.90m, 1.20m, 1.50m, 1.80m, 2.40m, 2.60m, 3.00m

WALL PLATE GALVANISED STEEL WITH COVERS

MODE Fencing Wall Plate in galvanised steel with covers, ideal for starting a fence from a house or garden wall. Measuring 1.80m, it includes a U-channel, two U-channel covers, and three fixing brackets for secure attachment. This setup ensures your starting post matches the MODE fence posts perfectly.

Fence panels attach to the wall plate just like they do to MODE fence posts, delivering a consistent and professional finish.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

Sizes: 1.83m

RIGHT ANGLE CORNER GALVANISED STEEL WITH COVERS

The 1.80m Right Angle Corner in galvanised steel with covers, designed for constructing perfect 90-degree corners in your fencing. The set includes a Mode U-channel that secures to the Mode H Post using a simple POP rivet, 2 U-channel covers, and 1 end post cover, all colour-matched. The fence panels are secured into the U-channel just like with the Mode H post. The powder-coated aluminum covers and galvanized steel post provide superior corrosion resistance and protection from the elements, ensuring a durable and long-lasting fence system.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

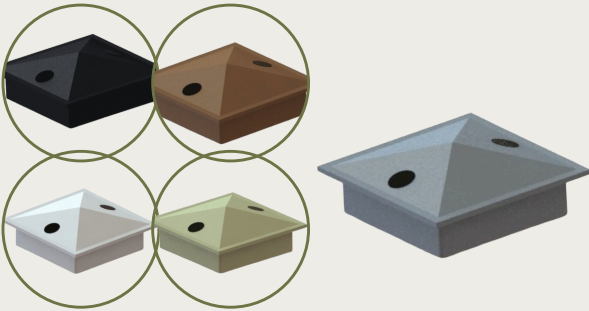

HEAVY DUTY BOTTOM RAIL

This 2.4m bottom rail can be cut to your desired length. This style of bottom rail is essential when it comes to vertical fencing ensuring that all panels stay in place. These rails are specifically designed for the Cheadle composite panel, fitting snugly to offer crucial support and strength.

Colours: Black, Brown, Light Grey, Olive, Anthracite grey
Size: 2.40m

PYRAMID POST CAP

The Pyramid Shaped Post Cap in Olive Powder Coated finish—a blend of elegance and functionality for your fence posts. This stylish accessory enhances the aesthetics of your outdoor space while providing essential protection.

The pyramid shape ensures effective rainwater shedding, preventing moisture build-up and extending the life of your fence posts.

Easy to install, it offers a secure fit and timeless charm that complements any fence colour.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

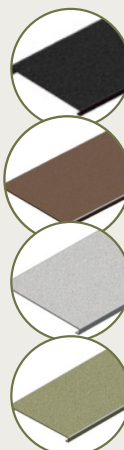

UNIVERSAL U CHANNEL COVER TRIM

2.4-meter Cover Trim that can be used as an end post cover, a corner post cover as well as a top and bottom rail. This would be suited as a bottom rail when using horizontal fence panels. This cover ensures a sleek finish while safeguarding end posts and corners.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

COVER FOR STEEL FENCE POST

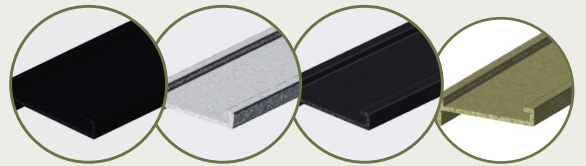

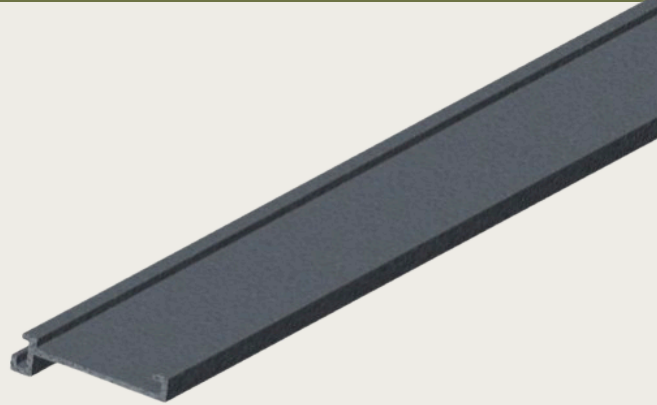

2.4-meter Cover for H Section Post, expertly crafted for a seamless fit. This cover offers protection and a polished finish to your fencing system, safeguarding H section posts from the elements.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

COVER FOR STEEL FENCE POST U CHANNEL

Introducing our 2.1-meter Cover for U Channel, designed for a flawless fit on U-channel posts. This cover provides both protection and a refined finish, ensuring a seamless and polished appearance while safeguarding your posts. With a sophisticated color that enhances your fencing's visual appeal, it blends effortlessly with your setup. Enjoy easy installation and a cohesive look with this elegant cover.

Colours: Olive, Light Grey, Brown, Black, Anthracite Grey

GRAVEL BOARDS

The Composite Gravel Board in Light Grey, is designed to elevate fence panels above wet ground and retain soil on uneven terrain. This versatile board combats soil erosion, maintaining consistent ground levels and enhancing both the visual appeal and structural integrity of your fence.

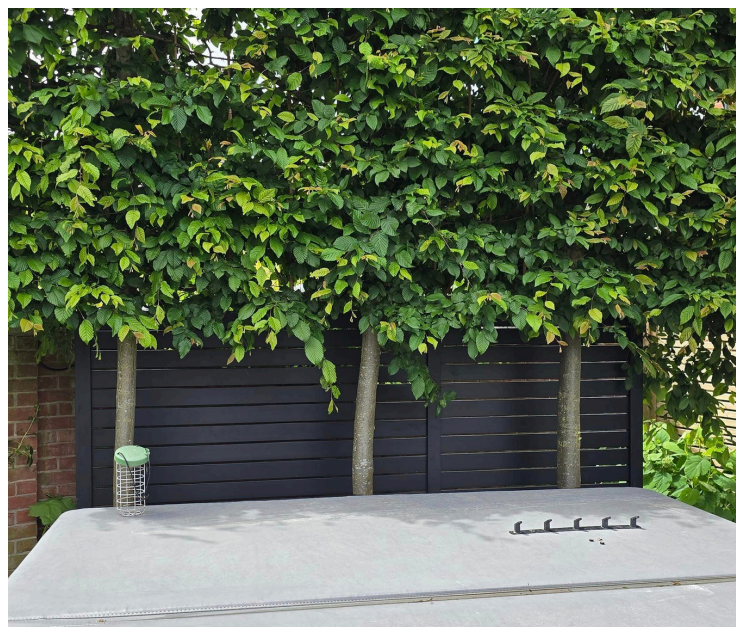

Compatible with Mode Steel posts, covers, and standard concrete posts, it can be fixed using M4 countersunk screws with Mode posts or strong mastic with concrete posts.

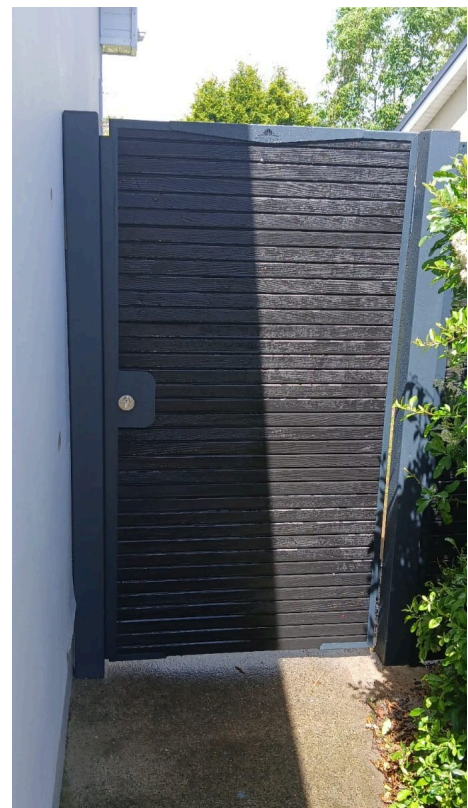

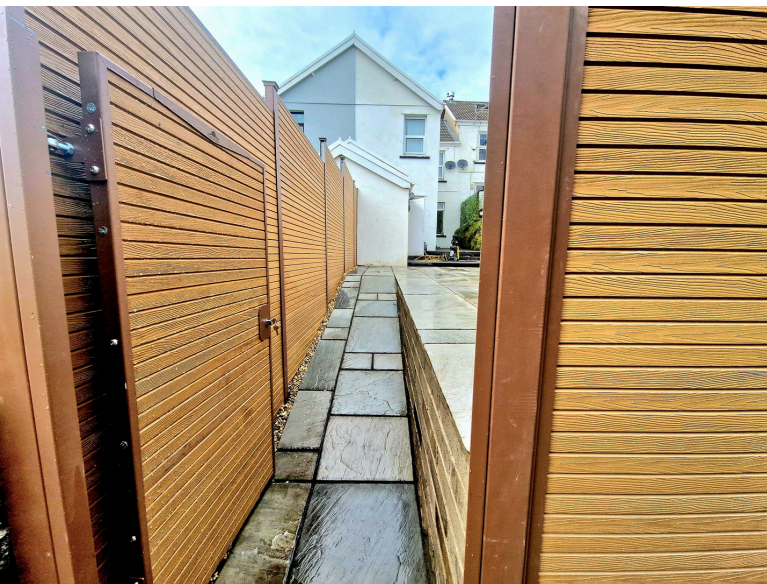

Sizes: Available in sizes 1.83m and 2.4m lengths, and 300mm and 150mm widths.

Hear what people are saying about us..

David Batey

**Bespoke
Landscaping and
Fencing**

"I am Dave Batey, based in Leicestershire and owner of Bespoke Landscaping and Fencing. We've been fencing for many years and always try and use the most innovative methods and materials.

Since meeting Mark and using Mode Fencing we've taken our client base to another level. We found that other company's prices put 9/10 customers off so it was a breath of fresh air when we discovered Mode.

Install wise we now use Mode posts for a variety of different methods, including timber featheredge, timber panels, composite panels, aluminium panels and even raised beds. The variety doesn't stop there with 15 different colour ways, there really is something for everyone.

Mark is also amazing to work with, from the ordering process, to quick delivery's, and even incorporating ideas I've shared into new products now available to other contractors and stockists, the collaboration has been outstanding. I'm excited to continue working with Mode for many years to come."

Corey Murphy

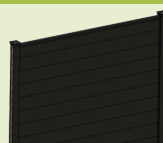

LIFE Landscape and Building Maintenance

"Our customers love MODE; it requires little to no maintenance, and the installation process is smooth and satisfying. Our team at LIFE Landscaping loves installing MODE. We are confident in the strength of the system and look forward to completing more projects around the United Kingdom."

Mode Fencing recently installed new aluminum solid panels for EG Group/Asda in Leicester. The trial, chosen for its durability, longevity, and stylish look at a sensible price, was first implemented at a petrol station on Aylestone Road. The project featured 26.5 meters of Mode Fencing aluminum panels, 1500mm high, with black posts, top rails, and top caps. Installation was expertly carried out by Bespoke Landscaping and Fencing.

THE PERFECT MATCH

MODE not only delivers high-quality fencing solutions but also enhances the architecture of your home. Available in a range of colors, MODE seamlessly integrates your home and garden, creating a harmonious and stylish connection.

BECOME A REGISTERED DISTRIBUTOR

Why become a registered Distributor?

- **Cost Savings for Contractors:** Contractors will prefer buying from you, as purchasing directly from our website incurs shipping costs, making it more economical for them to buy locally.
- **Increased Visibility:** Our registered distributor list helps contractors easily find local stockists, driving more business to your location.

How to apply

- If you're interested, simply fill out the form on our website and a member of our team will reach out to discuss this opportunity further. Alternatively call us today on 01925 649587 and speak to a member of our team.

Become a registered installer

It doesn't matter whether you are a large or small contractor, we recognise the vital role you play in this industry and would love for you to join our MODE Fencing family.

Why become a registered installer?

- Free MODE fencing training programme
- Free promotion and marketing on our website and all our social platforms.
- A dedicated page on our site to promote previous work you have completed.
- Access to promotional materials. We will provide you with any quotes we receive for jobs in your area, in turn growing your business.

What is the process?

- Express your interest in becoming a registered installer by speaking to a member of the MODE Fencing team.
- Once you have a secured job that involves using MODE fencing products, a member of our team will join you onsite to provide some training and inspection of the job completed.
- If we are satisfied with your standard, you will be issued a registered MODE installer certificate and a page on our website.
